

Blue Lamp Trust – Taxi Driver Assessment

The Blue Lamp Trust has been a major supplier of taxi assessments to local authorities in Hampshire and surrounding counties since 2011, offering licensing authorities and taxi drivers a credible alternative to the DSA taxi test.

We aim to offer a friendly and efficient service to our customers using our highly skilled driving assessors. We operate on a short lead time with assessments available from three locations in Hampshire.

As a charity, all the proceeds of our assessments (after deduction of costs) are recycled into the “bobby scheme” to secure the homes of the elderly and vulnerable.

Our assessment is specially designed for both prospective drivers as part of their application process or to “quality control” established taxi drivers.

Driving Assessment

- Please allow 1 hour in total
- Driving Licence will be checked (please bring both parts)
- Maintenance questions
- Eyesight check (you will be required to read a number plate at 20m (68ft))
- 45 minute drive on a variety of road types
- Several stops as if alighting passengers
- 2 reversing manoeuvres
- Emergency stop
- Maximum of 9 driving faults allowed (no serious or dangerous faults)
- 15 minute debrief & result
- E-certificate issued to licensing authority for successful applicants
