

## Environment

<https://ehdcllocalplan.commonplace.is/en-GB/proposals/environment/step1>

### ENV1 Which of the below environmental considerations is most important to you? (sort in order of importance)

- Creating better natural links between existing habitats
- Conserving the character of rural landscapes
- Protecting the most vulnerable existing protected habitats and species
- Achieving improvements to local wildlife habitats

Conserving rural character and protecting vulnerable existing habitats and species were both chosen by just over 40% as the most important consideration.
