OFFICIAL

Dear Planning,

Thank you for consulting Network Rail on the above plan.

Network Rail is the statutory undertaker for maintaining and operating railway infrastructure of England, Scotland and Wales. As statutory undertaker, Network Rail is under license from the Department for Transport (DfT) and Transport Scotland (TS) and regulated by the Office of Rail and Road (ORR) to maintain and enhance the operational railway and its assets, ensuring the provision of a safe operational railway. Consequently, development that impacts the railway is of interest to Network Rail.

In relation to Policy 11, Network Rail support the policy objectives of providing pedestrian/cycle routes to connect the station with the rest of the parish. Such infrastructure encourages commuters or residents to utilise sustainable forms of transport, such as rail, as oppose to relying on cars. Integrating the railway into the community presents an opportunity to create an attractive station environment and also encourages pride in place.

I hope the above is clear, feel free to contact me with any queries.

Kind Regards,

**Sam Bhatti**
