

East Hampshire District Council's Welfare and Wellbeing Strategy 2024 – 2029.

Our Vision:

To empower our residents to live healthy, fulfilling and independent lives which will create supportive, well-connected and resilient communities.

Better PLACES

Fit for purpose and future proof community infrastructure, including sustainable transport and appropriate planning policies.

Protected and enhanced open spaces.

Adaption to, and mitigation of, climate change.

Appropriate and safe accommodation accessible to all.

Better LIVING

Positive mental wellbeing, through improving access and promotion to services.

Reducing health inequalities, especially amongst vulnerable groups.

Improved physical health through increased opportunities for physical activities.

Best start in life for children and young people and supported transition to adulthood.

A Better

PLAN

Better AGEING

Promoting Live Longer Better principles to increase healthy life expectancy.

Resilient and independent ageing community which fully participates in society, by supporting digital inclusion.

Reducing the drivers of social isolation and loneliness by improving social connections, mapping transport links and increasing volunteering opportunities.

Better NETWORKS

Improving access to support in the community for all underrepresented groups.

Providing assistance to those facing financial difficulties, with respect to the cost-of-living crisis, fuel poverty and food poverty.

Contingency arrangements in place for emergencies relating to health, environment, politics and others.
