

# Your Council Tax 2026/27

## Where your money goes

East Hampshire District Council collects your council tax and distributes it to other local authorities and emergency services.

For every £1 you pay in council tax, less than 7p goes towards the services provided by East Hampshire District Council.

Our 2026/27 budget ensures that we can continue to deliver the services that support those residents most in need, empower thriving communities and continue to improve people's lives.

## Local Government Reorganisation

This means replacing the current two-tier system of county and district councils with a single, simpler unitary council responsible for all the services that these councils currently provide. Parish and town councils will stay as they are. The government is currently deciding what this will look like for Hampshire and the Solent.
